**Enjoy a seminar by Richard Harvey,
bestselling blackjack book author!**

All playing levels, including beginners, are welcome. Richard Harvey studied theoretical math and statistics in college, which led to the publication of his first book, Blackjack The Smart Way.

Players of all levels fly hundreds of miles to take his seminars, but Mr. Harvey will demonstrate his method for free at the library, and autograph copies of his books. Books will be available for purchase.

Please note that blackjack demonstrations are part of this seminar, but guests will not be playing cards at this event.
